## Volume 13 (2001)

**Anticipatory control**; Locomotion; Biomechanics; Gait **13**, 7

**Artificial neural networks**; Automatic data processing; Wavelets; Gait analysis **13**, 102

**Asymmetrical weight**; Center of mass; Body orientation; Frontal plane; Postural control system **13**, 95

**Automatic data processing**; Artificial neural networks; Wavelets; Gait analysis **13**, 102

**Automatic data processing**; Multivariate analysis; Fuzzy clustering; Fractals; Gait analysis **13**, 49

**Balance**; Gait; Obstacle; Center of mass **13**, 17

**Biomechanics**; Equilibrium; Sport rock climbing; Overhanging position **13**, 86

**Biomechanics**; Human locomotion; Two- and three-dimensional analysis; Walking; Inverse dynamics **13**, 73

**Biomechanics**; Locomotion; Anticipatory control; Gait **13**, 7

**Body orientation**; Center of mass; Asymmetrical weight; Frontal plane; Postural control system **13**, 95

**Cadence**; Oxygen consumption; Walking speed; Variability; Normalisation **13**, 202

**Cardan angles**; Gait analysis; Pelvic angles **13**, 1

**Center of mass**; Body orientation; Asymmetrical weight; Frontal plane; Postural control system **13**, 95

**Center of mass**; Gait; Obstacle; Balance **13**, 17

**Centre of pressure**; Sample duration; Quiet stance; Reliability; Summary measures **13**, 35

**Cerebral palsy**; Crouch gait; Hip locomotion mechanisms **13**, 78

**Cognitive manipulations**; Postural control; Visual manipulations **13**, 41

**Crouch gait**; Cerebral palsy; Hip locomotion mechanisms **13**, 78

**Diagnosis**; Posturography; Orthostatic tremor; EMG **13**, 27

**Dynamical systems theory**; Intralimb coordination; Running; Obstacle **13**, 210

**EMG**; Posturography; Orthostatic tremor; Diagnosis **13**, 27

**Equilibrium**; Biomechanics; Sport rock climbing; Overhanging position **13**, 86

**Fractals**; Multivariate analysis; Automatic data processing; Fuzzy clustering; Gait analysis **13**, 49

**Frontal plane**; Center of mass; Body orientation; Asymmetrical weight; Postural control system **13**, 95

**Fuzzy clustering**; Multivariate analysis; Automatic data processing; Fractals; Gait analysis **13**, 49

**Gait analysis**; Automatic data processing; Artificial neural networks; Wavelets **13**, 102

**Gait analysis**; Multivariate analysis; Automatic data processing; Fuzzy clustering; Fractals **13**, 49

**Gait analysis**; Pelvic angles; Cardan angles **13**, 1

**Gait**; Locomotion; Anticipatory control; Biomechanics **13**, 7

**Gait**; Obstacle; Balance; Center of mass **13**, 17

**Hip locomotion mechanisms**; Crouch gait; Cerebral palsy **13**, 78

**Human locomotion**; Biomechanics; Two- and three-dimensional analysis; Walking; Inverse dynamics **13**, 73

**Intralimb coordination**; Running; Obstacle; Dynamical systems theory **13**, 210

**Inverse dynamics**; Human locomotion; Biomechanics; Two- and three-dimensional analysis; Walking **13**, 73

**Joint position**; Shoe sole thickness; Proprioception **13**, 221

**Locomotion**; Anticipatory control; Biomechanics; Gait **13**, 7

**Multivariate analysis**; Automatic data processing; Fuzzy clustering; Fractals; Gait analysis **13**, 49

**Normalisation**; Oxygen consumption; Walking speed; Cadence; Variability **13**, 202

**Obstacle**; Gait; Balance; Center of mass **13**, 17

**Obstacle**; Intralimb coordination; Running; Dynamical systems theory **13**, 210

PII: S0966-6362(00)00120-5

**Orthostatic tremor**; Posturography; EMG; Diagnosis **13**, 27

**Overhanging position**; Biomechanics; Equilibrium; Sport rock climbing **13**, 86

**Oxygen consumption**; Walking speed; Cadence; Variability; Normalisation **13**, 202

**Pelvic angles**; Gait analysis; Cardan angles **13**, 1

**Postural control system**; Center of mass; Body orientation; Asymmetrical weight; Frontal plane **13**, 95

**Postural control**; Visual manipulations; Cognitive manipulations **13**, 41

**Posturography**; Orthostatic tremor; EMG; Diagnosis **13**, 27

**Proprioception**; Joint position; Shoe sole thickness **13**, 221

**Quiet stance**; Sample duration; Centre of pressure; Reliability; Summary measures **13**, 35

**Reliability**; Sample duration; Centre of pressure; Quiet stance; Summary measures **13**, 35

**Running**; Intralimb coordination; Obstacle; Dynamical systems theory **13**, 210

**Sample duration**; Centre of pressure; Quiet stance; Reliability; Summary measures **13**, 35

**Shoe sole thickness**; Joint position; Proprioception **13**, 221

**Sport rock climbing**; Biomechanics; Equilibrium; Overhanging position **13**, 86

**Summary measures**; Sample duration; Centre of pressure; Quiet stance; Reliability **13**, 35

**Two- and three-dimensional analysis**; Human locomotion; Biomechanics; Walking; Inverse dynamics **13**, 73

**Variability**; Oxygen consumption; Walking speed; Cadence; Normalisation **13**, 202

**Visual manipulations**; Postural control; Cognitive manipulations **13**, 41

**Walking**; Human locomotion; Biomechanics; Two- and three-dimensional analysis; Inverse dynamics **13**, 73

**Walking speed**; Oxygen consumption; Cadence; Variability; Normalisation **13**, 202

**Wavelets**; Automatic data processing; Artificial neural networks; Gait analysis **13**, 102
